

Carbon Reduction Plan

Supplier name: OR Education Ltd. t/a Axcis Education

Publication date: 25th September 2023

Commitment to achieving Net Zero

Axcis Education committed to achieving Net Zero emissions by 2050.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2023	
Additional Details relating to the Baseline Emissions calculations.	
We have not previously had baseline emissions calculations as this is our first year reporting this information. These baseline emissions are therefore our first-year calculations.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	0
Scope 2	12
Scope 3 (Included Sources)	129
Total Emissions	141

Current Emissions Reporting

Reporting Year: 2023

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to **106 tCO₂e by 2028**. This is a reduction of **25%**.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or are currently being implemented since the original 2023 baseline.

Reduction of overall energy use:

- Thermostats programmed to only run during working hours
- LED lighting with automatic sensors
- Unplugging equipment when unused
- Opt for a green/renewable energy tariff

Waste:

- Ensuring no waste to landfill and more waste recycled
- Using sustainable waste disposal companies with electric fleets
- Move from paper documents to online documents
- No single use plastics
- Recycling or reselling used equipment

Travel:

- Allowing a hybrid WFH model
- Encouraging car sharing and/or public transport, where possible
- Actively promote online meetings to reduce overall travel required

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.
